

POLICY STATEMENT

Section § 37-147-15 of the Mississippi University Authority Act of Mississippi Code of 1972 as amended in 2015 (“MURA”) authorizes the University to form one or more research corporations to promote, develop and administer enterprises arising from research or technological innovations. MURA states that officers and employees of the University may have ownership or financial interests in such corporations; however, it is the policy of the University that no officer or employee of the University shall have ownership or financial interests in a research corporation formed by the University.
