

Full-Time Status for Internship and Cooperative Education Programs

The purpose of this policy is to provide full-time status to students participating in certain Internships and Cooperative Education programs who are not registered for a full-time course load. In order for a student to be eligible for this full-time status, the program must be rigorous and the time commitments must be approved through various university channels, including the Academic Department and the Office of the Registrar. This designation will allow these students the benefits and privileges provided to full-time students, allowing them full participation in and access to the services, programs, facilities, and activities of The University of Mississippi.
