

Security Grates/Screens

The security grates, which cover the first floor windows of most of the residence halls, have been installed to increase the safety of all residents. In order to maintain security the grates are to remain closed and locked at all times. Residents are not to open the security grates in non-emergency situations. The penalty for opening a grate in non-emergency situations is \$100. Tampering with or removing a window screen is also prohibited.
