

Expectations of Campus Visitors

Summary/Purpose: To define and clarify the University's expectations and standards concerning the behavior, conduct, and actions of campus visitors and guests.

PEOPLE AFFECTED: Visitors

The University expects campus visitors to follow University standards for behavior while attending campus events or visiting the University. Thus, campus visitors must comply with all applicable laws, regulations, and policies, including policies that prohibit student misconduct (see Student Conduct policies in the University's Policy Directory). If a visitor to campus violates any applicable laws, regulations, or policies or refuses to comply with the same, the University may require the campus visitor to leave campus or any campus facility or event, and the University may deny future entrance to campus or to any University facility or event.
